DAI CHUNG HY

DATA ANALYST TRAINEE

Ho Chi Minh City, Vietnam | (+84) 97 883 3926 | daichunghy@gmail.com | LinkedIn | Portfolio

KEY PROFILE SUMMARY

Fresh graduate with applied analytics experience across large review and survey datasets in hospitality, mobility, and consumer behavior. Built documented workflows to collect, clean, and structure data, then turn findings into charts, slides, and summary notes for decision-making. Comfortable with Python, Excel, and basic SQL. Looking to build a strong analyst foundation in fintech before moving into consulting.

EDUCATION

Swinburne University of Technology | Bachelor of Business, Marketing — **Sep 2022 - Dec 2025**

- Coursework in Consumer Analytics, Marketing Research, Statistical Modeling, and Quantitative Methods.
- Portfolio-listed awards include Swinburne Academic Scholarship and Best Performance Awards.
- 2 publication-linked outputs across applied research projects.

EXPERIENCE

Applied Analytics Projects | Swinburne University and Independent Projects — **2025 - 2026**

Hospitality, mobility, and customer analytics

- Built and documented an 11-step workflow to collect 74,896 Booking.com reviews across 458 Da Nang hotels, with timestamped source logs and structured outputs for later analysis.
- Cleaned and organized 260,710 review sentences across eight service areas, then grouped customers into 10 segments to support customer profiling and service improvement discussions.
- Reviewed 97,014 hotel reviews from about 1,000 Vietnam properties to identify which service issues were most associated with lower satisfaction and improvement priorities.
- Applied data-quality checks in survey projects, narrowing a Hanoi mobility study from target n = 400 to 320 usable responses and an EV preference study from 620 invitations and 240 completions to 212 valid cases.
- Prepared charts, summary notes, and slide materials used for project reviews, conference-related outputs, and business or policy discussions.

AI Chatbot Project Assistant | FPT Education — **Mar 2025 - May 2025**

- Reviewed university support models from UEH and BUV to map common student questions, service flows, and useful support features.
- Structured the use cases and information architecture for an AI chatbot supporting academic services and campus resources.
- Prepared proposal and presentation materials covering the chatbot concept, scope, and implementation direction for client discussion.

EXTRACURRICULAR LEADERSHIP

SUS Business Club | Human Resource Member — **Jan 2024 - Dec 2025**

- Supported internal operations for orientation programs and student business competitions.
- Coordinated planning with other club teams to track activities and deliver projects.

VietPride 2022 | Volunteer Coordinator — **Jun 2022 - Sep 2022**

- Coordinated volunteer shifts and onsite logistics with a team of 30+ volunteers.
- Supported event operations for activities on Nguyen Hue walking street.
